Lenovo

The right devices for students and faculty

We equip the leaders of tomorrow — and the faculty and educators that guide them there — with easy-to-use, forward-thinking tech. Devices like the portable Lenovo ThinkPad® P1 Gen 7 and the best-in-class ThinkPad® X1 Carbon Gen 13 Aura Edition, powered by the Intel® Core™ Ultra 9 processor, inspire learning on campus or remotely.

A partnership built around smarter learning

We work closely with higher education institutions to:

- ✓ Assess needs by understanding the latest trends in tech and education.
- ✓ Evaluate solutions tailored to meet your desired outcomes.
- ✓ Customize options for your institution's mission and student population.

End-to-end solutions for every institution

Lenovo's portfolio of compatible hardware, software, and services means easy deployment and management. Our Windows 11 devices powered by the Intel vPro® platform offer an unrivaled education solution.

More value to advance learning

Instill skills, prepare for the future

From devices and software to support and services, the Lenovo team is here to help your institution leverage technology for better learning outcomes.

More value to advance learning

Devices

Durable and remote management-ready devices include desktops and laptops for students and faculty, as well as workstations for STEM coursework and other compute-intensive tasks. Built-in AI features can also help prepare students for the workforce of tomorrow.

Software

Protect, manage, and enhance learning with endpoint and data security, device management, and remote deployment solutions. Microsoft 365 for Education creates a comprehensive educational experience.

Accessories

Ideal for the classroom, dorm room, or on the go, Lenovo offers monitors, webcams, speakers, headsets, and mice plus protective cases and backpacks.

Collaboration

Support seamless hybrid learning, virtual learning, and collaboration with all-in-one video devices and the Microsoft Teams platform. Audio and video enhancement accessories can further elevate the experience.

Services

Trust Lenovo's specialized, dedicated services, including Lenovo TruScale, Premier Support, and Accidental Damage Protection. Additional services include Keep Your Drive, Lenovo CO₂ Offset Services, and bulk packaging.

Comprehensive infrastructure

From edge to cloud, Lenovo delivers flexible infrastructure solutions for institutions to adapt to their evolving research, teaching and learning, operations, and security requirements.

Specialized solutions

Provide a dynamic and engaging educational experience by enriching learning through hybrid classroom setups, digital signage, Lenovo ThinkReality, and esports programs.

Forward-thinking security

Creating a secure learning environment is essential for both students and faculty. Our advanced suite of partner applications, combined with ThinkShield — Lenovo's comprehensive security portfolio — offers end-to-end protection for your hardware, software, services, and processes.

These defenses are further strengthened by the built-in security features of Lenovo devices running Windows 11 and powered by the Intel vPro® platform.

With Intel® Threat Detection Technology, your institution benefits from a robust, hardware-based security solution that leverages AI to detect and prevent ransomware, cryptomining, and memory scanning attacks before they can cause harm.

More value to advance learning

Secure AI features and support

Lenovo's AI-ready devices provide secure and personalized experiences for students and faculty in higher education. The **ThinkPad X1 Carbon Gen 13** Aura Edition, powered by the Intel® Core™ Ultra 9 processor with an integrated AI engine and Intel® Arc™ graphics, delivers exceptional performance in a durable, ultra-portable design.

ThinkPad X1 Carbon Gen 13

ThinkPad P1 Gen 7

For STEM career readiness, the **ThinkPad P1 Gen 7** harnesses the power of AI to enhance productivity, from content creation to routine task automation. Lenovo also prioritizes security, offering AI-driven threat detection and robust protection with devices like the **ThinkPad® X13 2-in-1 Gen 5**, ensuring safe and efficient AI-accelerated learning.

Comprehensive services for your campus

Lenovo TruScale gives you access to flexible solutions delivered with the simplicity of a scalable consumption model. Lenovo Premier Support provides 24/7/365 support to ensure learning is never disrupted.

Additional services include Accidental Damage Protection to safeguard your investment against unexpected setbacks, Keep Your Drive to provide an extra layer of protection for your students' sensitive data, and sustainability services like Lenovo CO₂ Offset Services for a smaller environmental impact.

Plan ahead. We'll work with you to assess your school's student and faculty population.

Configure a solution. Build a tech ecosystem that supports your campus's needs.

Get devices up and running fast. Quickly enroll devices at scale to your cloud environment using Windows Autopilot for zero-touch deployment.

Activate it. Lenovo deployment services take the hard work out of software installation, cloud deployment, and data migration.

Receive support. Get help with maintenance, security, and compliance from one single point of contact.

Save time. Additions, upgrades, and renewals can be handled automatically.

Continuous innovation for the next generation

Lenovo Education's full lineup of hardware, software, and services is designed to inspire learning on and off campus — for the students who will become the leaders of tomorrow to the faculty that help them get there.

Lenovo will continue to use its technology, expertise, and global reach to help level the playing field in education, provide more STEM learning opportunities to more students, and build a world with more scientists, innovators, and problem solvers.
